Service Bulletin

RS3079 – KIT Poultry Manure Paddles
Fitting Instructions

1. Remove the lowest five standard rotor tips from the bottom of the spiral section on each rotor. The lower balance weights should retain the standard rotor tip.

2. Fit the poultry manure paddles to the positions where the standard rotor tips were removed. The illustration in the picture below shows where and in what direction the poultry manure paddles should be fitted.

Figure 1. Illustration showing the positions of the poultry manure paddles (blue) on the rotors and in what direction they should be fitted.
